

**IN THE DRAWINGS**

Please amend FIG. 1 as indicated in the attachments to correct the placement of the “tie bars” of the bottom of the continuation sheet whose positions were erroneously shifted when formal FIG. 1 was previously submitted. Note that FIG. 1 contains a first sheet and a continuation sheet. The change occurs in the continuation sheet.

**REMARKS**

The specification has been amended herein to delete the graphics at page 7 of the application, as requested by Examiner Jackson during a telephone conversation with the undersigned on May 9, 2006. Upon review of the application in connection with this change, it was observed that the "tie bars" were misplaced at the bottom of the continuation sheet for FIG. 1. Accordingly, this oversight is corrected herein as well by an amendment to FIG. 1. Should there be any further questions in connection with this application, the Examiner is invited to contact the undersigned at the number below.

Respectfully submitted,
